About Erdös Edu Center

Founded in 2017 by Prof. Afshin Behmaram, Erdos has grown into an international education and Olympiad center, dedicated to academic enrichment and international competitions.
Today, Erdös operates from Dubai Science Park, UAE, partnering with schools and students across the region to create meaningful academic opportunities beyond the standard curriculum.
Our commitment to our partners and students remains unwavering—even during times of regional unrest, we continued to deliver our international programs and competitions without interruption. In recognition of this commitment and continued efforts, Erdös was recognized as a Top Educational Brand in Asia at the 2026 Brand for Good Awards.

Prof. Afshin Behmaram is a mathematician and educator specializing in Combinatorics, Graph Theory, and Mathematics Education. He is a University of Tabriz faculty member, with a Ph.D. From the University of Tehran and a Postdoctoral Fellowship in Mathematics from the University of Illinois Chicago (UIC). He is founder and director of Erdös Edu Center and has served on the advisory boards of SASMO and Singapore International Scholastic Trust (IST).

Benefits for schools

Participating schools will receive the following:

1. A certificate of recognition is awarded to schools that enrols 100 or more students for participation in the AMO competition
2. Every school will be provided with online performance and statistical report for each participating student, aiding teachers in comprehending their students' strengths and areas for improvement. Additionally, schools will receive competition-related statistics to facilitate curriculum enhancements.
3. In addition, the top scorer for every 100 AMO contestants from each school will be awarded a LMS (training) and SLSP contest scholarship to compete in the Singapore Math Global Finals held Online.

How to register?

Should you be interested in registering your students for the AMO, or require any further information or clarification, we would be pleased to assist you. Please feel free to contact us through the communication channels provided below, and our team will be happy to provide the necessary guidance and support.
